THIS PAMPHLET CONTAINS A COMPLETE RECORD OF LEGISLATION TO DATE OF ISSUE

ALBANY

1911.

The Course followed by a bill from the time of Introduction in the Legislature until it becomes a law, is indicated below:

IN SENATE.	IN ASSEMBLY.
1. Introduction and Reference to Committee.	1. Introduction and Reference to Committee.
2. Referred to Committee of the Whole on report from Committee.	2. Ordered to Second Reading on report from Committee.
3. Ordered to Third Reading and referred to Committee on Revision.	3. Ordered to Third Reading and referred to Committee on Revision.
4. Passed and transmitted to the Assembly for action by that house.	4. Passed and transmitted to Senate for action by that house.
5. Transmitted to Governor or to the Mayor, if a city bill.	5. Transmitted to Governor or to the Mayor, if a city bill.

When a bill is introduced in the Senate or Assembly it is referred to the standing committee appointed to consider that particular subject of legislation. It is printed before it is considered by the committee. When a bill is reported by the committee, either favorably or for the consideration of the house, it is referred to the Committee of the Whole in the Senate. After consideration by the Committee of the Whole it is advanced to a third reading, then revised as to language and form by the Revision Committee, after which it is engrossed and ready for final passage. The procedure is the same in the Assembly upon the introduction of a bill except that an order of business known as "Second Reading" has been substituted for the Committee of the Whole. A bill, passing the Senate or Assembly, goes to the other branch of the legislature, as the case may be, and takes the same course in that branch as though it originated there, unless it is substituted for an identical bill introduced and already on the calendar of that house.

A bill may be reported by a committee either favorably, adversely or for the consideration of the house. If reported favorably or for consideration it advances to the next order of business. If reported adversely the house to which it is reported must agree to the report, which kills the bill, or it may disagree with the report and order the bill to the next order of business. A committee may be ordered to report a bill by the vote of the house. A bill usually is amended in committee, in the Committee of the Whole of the Senate or on the order of Second Reading in the Assembly, although it may be amended on the order of final passage. A Senate bill may be amended in the Assembly, after it has passed the Senate, and vice versa. Such amendments must be concurred in by the house in which the bill originated, before the bill can be transmitted to the Governor, or to the Mayor, as the case may be. The Committee on Revision may amend a bill only as to its grammatical and legal form. A bill must be reprinted each time it is amended and it can not be passed in final form, in either house, unless it has been upon the desks of the members for three legislative days, unless an emergency message from the Governor certifies to the necessity of immediate passage, as provided in the Constitution. Bills may be reported by a committee, with amendments, for reprinting and recommital for further consideration.

Any member may introduce a bill and any one interested, either personally or through his attorney, is accorded a hearing before the committee to which the bill is referred.

During the last ten days of the session the work of the Assembly committees is taken in charge by the Committee on Rules, which makes up the calendars of the Assembly for the balance of the session. In the Senate the committees have charge of all bills up to the close of the session. The Committee on Rules has power to take a bill from a committee and place it immediately upon the order of final passage. It may also amend a bill in any particular.

Concurrent Resolutions, proposing amendment to the Constitution, which must be submitted to popular vote, are sent to the Secretary of State and do not require any action on the part of the Governor.

A bill may be progressed without regard to the regular order in either house, by unanimous consent or by a suspension of the rules, up to the point of final passage.

During the session of the legislature the Governor has ten days in which to approve or veto a bill. If he does not take action within that time the bill becomes a law. If vetoed, the bill may be passed over his veto by a two-thirds vote of the legislature. All bills passed during the last ten days of the session are treated as thirty-day bills and the Governor has thirty calendar days, after the legislature adjourns, within which to act. All bills not signed by the Governor during that period are dead.

A bill affecting the interests of a city must be sent to the Mayor for approval by the city authorities. The bill must be returned within fifteen days. If returned without approval it may be re-passed in the legislature by a majority vote of each house. Bills returned by the Mayor, without approval, after the adjournment of the legislature, are dead.

By Senator Burd. Whereas, the Committee on Rivers and Harbors of the House of Representatives of the Congress of the United States, in compliance with the request contained in the joint resolution adopted by the Senate and Assembly of the State of New York on the fourth day of January, nineteen hundred and eleven, has deferred final action on the proposed bill before it, known as the Alexander Electric Power bill (H. R. No. 26,688) pending on examination into its provisions by the authorities of the State of New York; and

Whereas, a communication has this day been received from his Excellency, the Governor of the State of New York, wherein and whereby certain suggestions are made for effectively safeguarding and protecting the interests of the State of New York in the diversion of water from the Niagara river, which suggesions should be embodied in the form of amendments to said bill;

Resolved (if the Assembly concur), that the legislators respectfully request the Senators and Representatives in Congress from this State to use their best endeavors, at the present session to effect the amendment of said bill, as follows:

(1) So that the limitation upon the granting of permits to individuals, companies or corporations "which are now actually producing power" from the waters of said river or its tributaries shall be eliminated;

(2) So that any permits hereafter granted for the diversion of water from said river or its tributaries, in addition to those heretofore issued, shall be granted and issued by the secretary of war, having in mind especially such individuals, companies, or corporations as shall be able to satisfy him of ability to develop the maximum quantity of electrical power for such limited additional diversion of water; and that such permits shall be issued for such limited periods of time and upon such compensation to the State of New York as shall be reasonable and just.

(3) So that the limitation contained in this act, entitled "An act for the control and regulation of the waters of Niagara river, for the preservation of Niagara Falls, and for other purposes," approved June 29, 1906, and thereafter extended by joint resolution by the Congress of the United States, whereby not to exceed eight thousand six hundred cubic feet of water per second was permitted to be granted to any one individual or corporation, shall be restored in said bill and continued in effect thereunder:

By Senator Duhamel. That a committee of five be appointed, consisting of two senators to be appointed by the president of the senate and three members of the assembly to be appointed by the speaker of the assembly, to consider the urgent needs for transportation in the city of New York, the vastly increased debt limit of that city during the last few years, the excessive increase in tax assessments for the ostensible purpose of providing funds for new subways and subway extensions, and the pre-election pledges and promises of certain members of the board of estimate and apportionment of the city of New York.

That such committee proceed to immediately investigate and report to the legislature what influences are to be used and why these officials since their election are thwarting the wishes of the public, and injuring the interests of their city by blocking the building of the subways and extensions, why it is insisted that same shall be built and operated by existing monopolistic corporations only and that the city itself is not permitted to build these subways as desired by a vast majority of its citizens and in accordance with the platforms of all political parties prior to the last city election.

That such committee have the power to employ counsel and other assistants, take testimony, subpoena witnesses and require the production of books and papers, and otherwise have all the powers of a legislative committee.

Mar. 8. Com. on Judiciary.

By Senator Roosevelt. That a committee be appointed consisting of two members of the mitting to the delay and to the apparent loss of their contracts without protest, thereby giving rise to the charge that they are bribed to acquiesce. Therefore, be it

Resolved (if the Assembly concur), That a joint committee of five Members of Assembly, to be appointed by the Speaker of the Assembly, and three Senators, to be appointed by the President of the Senate, is hereby appointed and constituted a legislative committee to investigate and report as speedily as possible to the Legislature on or before June 30, 1911, why the contracts for the construction alone of the Triborough subway route in the City of New York, opened on October 27, 1910, have not been approved by the Public Service Commission, turned over to the board of estimate and apportionment and awarded; and also to recommend such steps as shall in the judgment of the legislative committee expedite the work of construction of the said Triborough route.

The committee shall ascertain the approximate amount expended by the Public Service Commission in preparing surveys, plans, estimates, etc., for the proposed Triborough route, and if that amount was judiciously expended.

Inasmuch as the Public Service Commission is responsible for the preparation of these plans and, so far, has declined to utilize them by holding up the contracts for construction alone the committee should learn the reason of the vast unnecessary expenditure.

The said committee shall have power to investigate any and all specific charges, duly verified, which may be submitted, and shall have authority to investigate any other matters or things pertaining to the delay in constructing said route, evidence of which may come to the knowledge of said committee, or any matters which, in the judgment of said committee, may warrant an investigation into the traction situation in New York City.

The committee shall elect its own chairman, vice-chairman, and shall have power to compel the attendance of witnesses and the production of all books and papers; to punish summarily any person or persons failing to obey its summons, subpœna or order; to employ counsel, stenographers, and all necessary clerical assistance; to sit anywhere in the State of New York, and shall also have all other power usual or necessary in cases of legislative committees, including the adoption of rules for the conduct of its proceedings;

By Senator Stilwell: Whereas, During the past three years criticism of the Public Service Commission of the Second District have frequently appeared in the press, alleging inefficiency and delays in the determination of matters coming before such commission, and

Whereas, It is apparent from such of the reports of the commission as have been made public that many months and sometimes years have elapsed between the filing of petitions and the determination by the commission of the matters involved, and

Whereas, It has been alleged that the files of the commission will show many letters from complainants and petitioners protesting against the inaction of the commission, and

Whereas, During the pendency of the bill which created the commission it was repeatedly asserted that one of the main objects of its creation was to establish a tribunal from which the public could obtain speedy relief in matters which should be relieved, and

Whereas, The statute creating the commission provides that the commissioners may be removed from office for inefficiency or neglect of duty, and

Whereas, The Legislature should be completely informed of the workings of the commission and its efficiency or inefficiency.

Resolved (if the Assembly concur), That a joint committee consisting of two Senators and three Assemblymen, to be appointed by the Lieutenant-Governor and the Speaker of the Assembly, respectively, be and hereby is created, whose duty it shall be to thoroughly examine into the accounts, offices and affairs of the Public Service Commission of the Second District and to report to this Legislature.

Further Resolved, That said committee may employ counsel and such experts, stenographic and clerical assistance as may be necessary and that the Sergeant-at-Arms of the Senate or an assistant shall attend upon the sessions of said committee in the performance of his official duty,

Further Resolved, That the actual and necessary expenses of the committee in carrying out the provisions of this resolution, not to exceed the sum of $10,000 shall be paid from the funds appropriated for the contingent expenses of the Legislature upon the certificate of the chairman of such committee, or from such other funds as may be appropriated by the Legislature, upon like certificate.
